Project Design Phase-II
Technology Stack (Architecture & Stack)

Date	20 October 2026
Team ID	Deepika Landge
Project Name	Health360:Comprehensive Healthcare risk & Disease Analytics
Maximum Marks	2 Marks

Define Your Technology Stack:

Identify the technologies, platforms, databases, BI tools, and integrations that you will use to build your Business Intelligence solution. A well-chosen technology stack helps ensure that the solution is scalable, maintainable, secure, and suitable for data analysis and reporting requirements.

S.No	Component	Description	Technology	Justification / Purpose
1.	Programming / Query Language	Used to calculate, filter, aggregate and analyze healthcare data using Tableau Calculated fields.	Tableau Calculated Field	To calculate KPIs, filters data and perform analytical calculations. SQL will be used only if required.
2.	Database / Data Warehouse	Used to store and organize the healthcare dataset in CSV or excel format for analysis and reporting.	Excel / CSV	To store and organize the healthcare datasets containing patient demographics, lifestyle factors and health indicators.
3.	Data Ingestion	Used to import the healthcare CSV dataset into tableau for analysis and visualizaion.	Tableau Desktop/ Tableau Public- CSV Connector	To import the healthcare CSV datasets directly into tableau for analysis.
4.	Data Transformation and Business Logic	Used to clean and format data, handle data-quality issues, and create calculated fields and KPIs for analysis.	Microsoft Excel; Tableau Data Source Filters and Calculated Fields	To check data quality, clean or format fields when necessary and create calculated measures for analysis.
5.	Data Visualization / Analytics	Used to create interactive dashboards, charts, reports, KPIs, and visual analysis.	Tableau Desktop/ Tableau Public	To create interactive dashboards, charts KPIs, and

				patient health analytic.
6.	Front-End / User Interface	Used to enable users to interact with dashboards through filters, charts and other visual elements.	Tableau Public Interactive Dashboard	To allow users to explore healthcare insights through charts, filters and interactive visualization.
